## GMR ENGINEERING & MANAGEMENT SERVICES

**Airports**

**Commercial Buildings**

**Transportation**

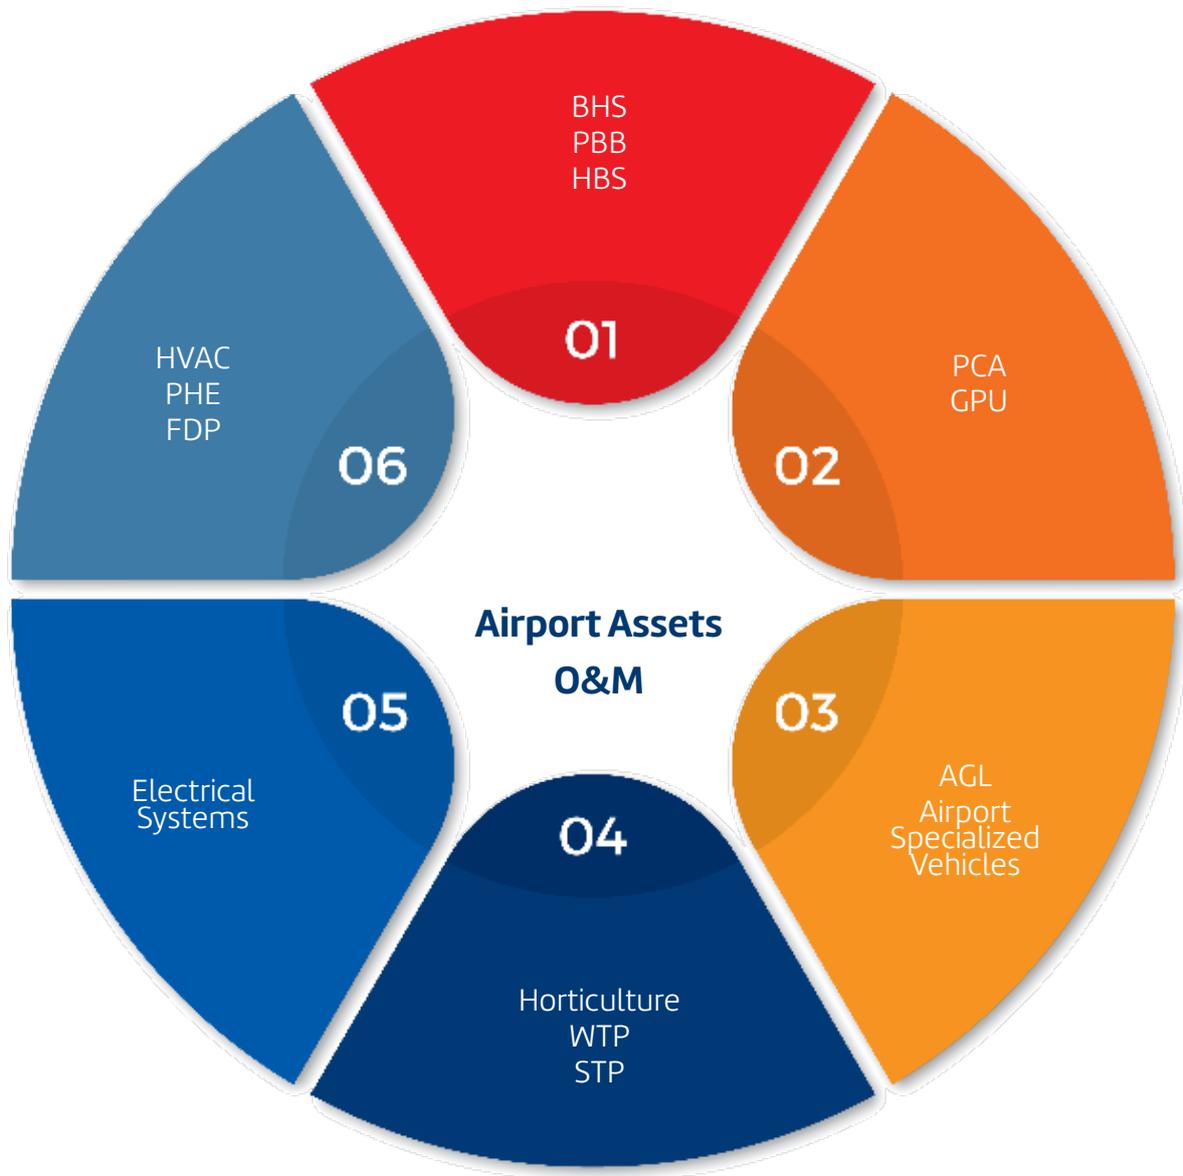

**Power Sector**

GEMS (GMR Engineering and Management Services), a pioneer in the field of engineering and management offers a bouquet of services to airports worldwide. At the core, we have expanded our engineering and management capabilities with focus on operational excellence, commercial performance and sustainability. Our experience in managing the highly acclaimed Indira Gandhi International Airport, Delhi and Rajiv Gandhi International Airport, Hyderabad is indeed our greatest strength.

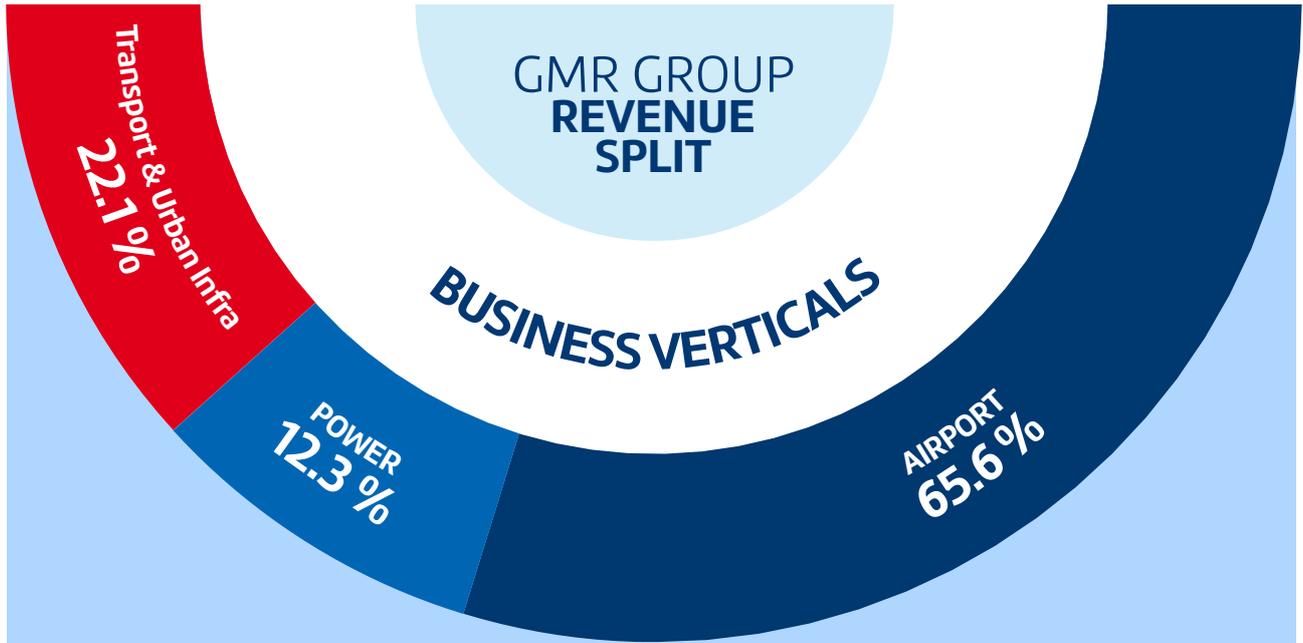

With over 15 years of experience, we are a one-stop solution provider for engineering and management services. With a complete gamut of integrated engineering solutions for airports and beyond, we offer high-quality and cost-effective solutions. With a diverse skillset of over 250 highly qualified engineers, we help our clients enhance their business with efficient, flexible and sustainable services that are cost-effective, high-quality solutions.

Covering a total area of 10 million square metres, GEMS provide world-class services that comply with local and global standards.

OFFERINGS

*BHS : Baggage Handling System | PBB : Passenger Boarding Bridge | HBS : Hold Baggage Screening | PCA : Pre Conditioned Air | GPU : Ground Power Unit | AGL : Airfield Ground Lighting | WTP : Water Treatment Plant | STP : Sewage Treatment Plant | HVAC : Heating, ventilation and Air conditioning | PHE : Public Health Engineering | FDP : Fire Detection & Protection*

**Amongst the Largest**

Private airport developers in the world, largest in India

**8 nos.**

Airport assets under operations or various stages of development

**300 mn**

Rated capacity across portfolio of airport assets

**~110 mn**

Passengers handled in FY20 across key gateway airports

**189 mn**

~108 mn under operations

**2,277 acres**

Land with strong RE development potential

**Strategic Partnerships**

With marquee operators at platform and asset level

**Integrated**

Airport development and operation capabilities

**Over 4.8 GW**

Total generation capacity, over 3 GW commissioned

**Marquee Investors**

Temasek Holdings Pte Limited, Tenaga Nasional Bhd. IDFC Alternatives

**4 Highway Projects**

totalling over 1400 Lane Kms

**~1,151 acres**

Land at strategic locations, integrated industrial development

**2 Railway packages**

totalling over 400 km under construction

Note : mn is million

# Successful track record of undertaking key functions across airport value chain

## PROVIDING SERVICES ACROSS THE AIRPORT LIFECYCLE

## COMPLETE SUITE OF CAPABILITIES WITH A SIGNIFICANT BASE OF MARQUEE CUSTOMERS

Company has a proven track record of successfully executing contracts for a variety of customers under each of these project models

<b>Design</b>	Conceptualisation / Design
<b>Construction</b>	Construction / Contract Management
<b>Transition</b>	Asset Handover / Contract Closure
<b>Operations</b>	Engineering & Maintenance

CAPABILITIES

## ACHIEVEMENTS

Under the Airport Service Quality (ASQ) Program by Airports Council International (ACI), Delhi & Hyderabad Airports have been consistently rated amongst the top airports in the world.

Energy Efficient and Sustainable Practices are the hallmarks of airports maintained by GEMS. Both Delhi & Hyderabad Airports have been recognised as “Excellent Energy Efficient Units” by Confederation of Indian Industry (CII). Consistent performance by both the airports have enabled them to emerge as “Industry Energy Leaders”.

These awards are testimony to the world class Engineering and Maintenance practices adopted by GEMS at these airports.
